In providing residency information to the District for enrollment of my child, I acknowledge and agree that if I provide information which is later determined to be false, I will be charged a fee equal to the per diem cost of tuition for a student attending school in the District pursuant to ownership of property as set forth in S.C. Code Ann. #59-63-45. This fee will be charged for each day that my child attends school unlawfully. I also understand that in the event I do not pay the required amount of tuition within 30 days of being advised of the tuition amount, the District may pursue legal action against me for recovery of these monies.
